

MINERS FIGHT IS ON IN EARNEST

Prospect That Railroad Men Will be Drawn In to the Trouble.

TIE-UP IS COMPLETE

About 125,000 Men in the Anthracite Districts Are Now Lying Idle.

STRIKERS ARE ALL ORDERLY

Scranton, Pa., Sept. 18.—[Special Telegram]—The switchmen and brakemen on the roads entering Scranton have decided to refuse to handle "scab" coal. This means that the employees on five railroads will strike if non-union coal is carried.

Every colliery in this district is closed, and it is expected by night that every washery will be idle.

Stoned by a Mob
Hazleton, Pa., Sept. 18.—[Special Telegram]—At Jeansville this morning the men were driven from a pit by a crowd who stoned them from the bank. A squad of police were dispatched, but no arrests were made. The colliery now is idle. The situation shows that the union is making slight gains among the men of the upper Schuylkill valley but all the Reading company and Coxes collieries are being worked under a reduced force.

Tie-up is Complete.
Wilkesbarre, Sept. 18.—[Special Telegram]—The tie-up in the Wyoming region is complete today, except for the West End coal company at Moanqua, not a mine in the Wyoming or Lackawanna district is producing coal. No attempt at violence.

Statement of President Mitchell
"Hazleton, Pa. Sept. 18. President Mitchell today gave out the following statement:
"Information received up to noon is that 125,000 mine workers are on strike in the anthracite region. Of this number 72,000 are in the district No. 1; 30,000 in district No. 9 and 25,000 in district No. 7. Reports received are to the effect that large numbers of those who went to the mines today will join in the suspension tomorrow.

"We feel confident that the entire number of men employed in and about the coal mines of the anthracite district will be idle in the next few days.
The men appear determined to continue on strike until their demands for justice have been acceded to. The number of men now on strike exceeds that of any other industrial contest in the history of our country."

MINE WHISTLES BLEW IN VAIN

Coal Strike Has So Far Proven to Be a Complete Success.
Wilkesbarre, Pa., Sept. 18.—Mine whistles blew in vain in the Lehigh, Wyoming and Lackawanna districts this morning. The prophesy of the labor leaders that more than 100,000 men would respond to the call to strike proved true, for even their own estimates were exceeded, as no less than 112,000 men are now idle, and the operators themselves would concede that they are liable to lose the remaining 30,000 before the present week is over.

Despite all reports circulated to the contrary in the past and those that can be looked for in the future, the strike has so far proven a complete success. There is no doubt that the United Mine Workers were much better organized than was generally suspected by the operators and the public.

Surrounded by Doubt.
The strike came off officially with little excitement but surrounded with all kind of doubt. The United Mine Workers leaders seemed to be the only ones who came near to the figures. The attempts of Father Phillips to have the troubles arbitrated are thought by a number of leaders to have slightly injured the cause of the strikers, because he seemed to place them in an equivocal position in which they refused to accept arbitration when it was offered them, although they claimed to be fighting for it.

May Involve Railroads.
Although the railroad men are apparently on edge for a strike the Brotherhood of Trainmen made no attempt today to interfere with the hauling of coal. Instead of 800 cars, however, leaving the Lehigh district, only 250 were sent out. One reason for this is that the mines with stocks in hand are holding

it while those working did not get but one-third of their usual product.
From the point of view of the officials there has been no change of the situation, though they are worried at the prospect of a strike is evident. Superintendent Keith after receiving a communication from headquarters reiterated his statement that all coal offered would be handled.

No Politics is Involved
In speaking of the charge that politics might have something to do with the present strike, President Mitchell today said:
"Politics will not, cannot and must not enter into the strike. There cannot be and shall not be any contention in a political sense as the declaration of a strike. The leaders feel, and they want their men to feel, and they want the public to think this fight is for human liberty. It would be nonsense, it would be cruel for anyone to inject politics."

Breaker Boys Seek Schools
A pathetic feature of the strike is the unusual number of small boys who applied for admission to the district schools. These boys, despite the state law that prevents the employment of children under 10 years of age in mines, range from 8 to 10 years. The meager wages earned by the fathers of families makes it impossible to support ten or eleven children, so these youngsters have to work. Some earn as much as 90 cents a day. When the mines are closed, like most young Americans, they flock to school. Today every little red building around Hazleton had its extra quota of dozens of breaker boys.

COAL STRIKE IS OF GREAT SIZE

Strike Leaders Expect to Close Every Mine in the East
Hazleton, Pa., Sept. 18.—About 100,000 miners struck in the anthracite regions, the largest number—as President Mitchell says in his official announcement—that were ever out on strike in any industrial contest in the history of the country. Mr. Mitchell and the other union officers claim that 112,000 walked out in the morning, but that number is probably in excess of the actual number. They do not attempt to conceal their disappointment at the failure of the men in the Lehigh and Reading districts to obey their orders, and have reason to be gratified at the unanimity that prevails in the Scranton district, where seventy-two of the seventy-five mines struck, and only one mine—that at a place called West End—is working today. Today special attention is being given to the men in that mine, and the strike leaders say that they can be persuaded to drop their tools before the sun sets. If moral suasion fails other means will be adopted, but it is not told what they will be.

In the middle or Lehigh district—called No. 4 by the miners—about one-half of the mines are closed and one-half of the men are out. At the good mines—those which are well managed and where the men are well treated—nearly the full forces are at work. The bad mines, as they are known, where abuses exist, are idle. The mines of the Coxes Bros., those of Whitney and Kammerer and the Marks and the Upper Lehigh county, are running with full crews, with the exception of the Ebervale, one of the four mines belonging to the Marks, in which there seems to have been a misunderstanding, as the employees explain that they were misled by street gossip and newspaper reports that all the Marks mines were to be shut down.

In the Reading district—the southern part of the anthracite region—nearly all the mines are running full blast. The mine workers' officials do not claim that more than 12,000 men have gone out there, and that is probably about the actual number.

IMMENSE GROWTH OF SOUTH OMAHA

The Increase in the Nebraska Town Has Been 222.51 Per Cent During Last Ten Years.
Washington, D. C., Sept. 18.—South Omaha, Neb., according to the census returns made public, has had a phenomenal growth in population during the last ten years, the increase reaching 222.51 per cent. Citizens of Omaha residing in Washington say the rapid increase of population in South Omaha explains in part the surprising decrease shown in the census report on the population of Omaha. Following are the figures for South Omaha and other cities:

	1900.	1890.	Pct.
South Omaha	26,001	8,062	222.51

MANY ARE STILL BENEATH RUINS

Over 2,500 Bodies Lie Unburied in Wreck of Galveston.

INSANITY AND FEVER

Doctors and Nurses Kept Busy Taking Care of the Sick People.

8,000 HAVE LEFT GALVESTON

Galveston, Sept. 18.—[Special Telegram]—The work of clearing the streets of debris proceeds rapidly with eight thousand men at work.

Bodies are constantly being uncovered and it is estimated that twenty-five hundred still lie beneath the ruins. One hundred and thirty corpses were cremated yesterday. A census is being taken by wards to ascertain the total loss.

Insanity and malarial fever claim the attention of physicians and nurses. The food supply is coming faster than can be taken care of. Railway transportation is expected to be open Thursday.

Congressman Hawley estimates that five million dollars in cash must be received to put the people where they can help themselves.

The latest list of dead in the Galveston disaster revised to date shows 4,078 lives lost.

It is estimated that 8,000 persons have left Galveston. Of these about 5,000 are now in Houston being cared for. Others have gone to the interior or to other states.

New arrangements made at Galveston enable people to get out without so much red tape and they are taking advantage of the opportunity to do so.

Governor Sayers has taken charge of the relief work here as well as at other points and money is being given out where needed, more than provisions and clothing.

INCREASE OF IMPORTS.

American People Have More Money to Spend Than Formerly.
Our imports for the year ending June 30, 1900, amounted to \$849,714,329, a sum greater by nearly \$100,000,000 than the highest amount reached by our imports during any one fiscal year which had its beginning during the last free trade administration. Four years ago President McKinley said in the course of one of the speeches which he made to visiting delegations:
"Nor do I think that it is economy to buy goods cheaply abroad if it thereby enforces idleness at home."

The imports of 1900 do not come under the head of goods which, by being bought abroad, have enforced idleness at home. There has been no idleness at home since McKinley was elected and the policy of protection was re-established. The protective tariff has seen to it that foreign producers have not been permitted to sell their pauper made goods in the American market at prices that would take the bread out of the mouths of American workmen. On the contrary, our imports this year represent largely goods which could not have been duplicated at home, and they have been paid for, and more than paid for, out of the surplus of American exports which busy American producers, made prosperous by the enactment of the Dingley law, have sent abroad, and the increase in the amount of our imports implies merely an increase in the amount of money which the American people have had to spend. The increase in their purchases of foreign goods is but a fractional part of the increase in their purchases of American made goods.

Salmon in British Columbia.
The Canadian fisheries department reports on the salmon fishing in British Columbia that in 1899 765,519 cases of salmon were packed and 36,744,912 pounds of salmon taken, valued at ten cents a pound, an increase in the take over 1898 of 13,102,460 pounds, and yet 12,000,000 pounds less than in the record years of 1897.

Kings Wire by Cipher.
Royal personages are in the habit of using a cipher for their telegraphic messages and a special messenger for their confidential letters which they do not like to confide to the mails. But there is no truth in the stories according to which cryptography is used by the various monarchs to communicate by letter with one another. In fact, Emperor William would not find life worth living if every time that he wished to write to his grandmother in England—and he is credited with doing so every week—he were obliged to sit down and spend a few hours in ciphering the contents of his letter.

VICTORIA ORDERS A NEW ELECTION

An Appeal to the Country For Approval of the Boer War.

LORD SALISBURY SAFE

Chamberlain May Succeed Lansdowne as Secretary of State For War.

OBJECT TO LORD LANSDOWNE

London, Sept. 18.—England is on the verge of a great election. Queen Victoria yesterday gave her consent to the dissolution of parliament on Sept. 25. The Boer war, it is now considered, has reached a successful end and the present government regards itself safe in asking the country for an indorsement.

Writes for the election of the new parliament will be issued on the day of dissolution. The new parliament will thereby be commanded to assemble on Nov. 1. Polls are to begin on Oct. 1 and are expected to last about sixteen days.

Conservatives Feel Hopeful
The dissolving house is composed of 399 ministerialists and 271 opposition, giving the government a majority of 128. The government majority after the last general election was 152, the differences being due to the changes which have taken place in the interim.

The conservatives confidently expect even a greater majority in the coming election, though to do so much it must necessarily pledge itself to reform the war and post office departments, against both of which there is a widespread disapproval.

Object to Lord Lansdowne.

If Lord Lansdowne is retained everybody will be surprised, though through his wealth and social position he may retain office in spite of public disapproval of his conduct of the war office.

If Lansdowne is dropped many think Joseph Chamberlain will be given the war portfolio.

Lord Salisbury is regarded as certain to succeed himself as premier if he so desires. Many of his friends, however, insist that if he does he should give up the office of foreign affairs, as the burdens of the two offices are too great for one man to carry.

HANNA WAKES UP THE BUSINESS MEN

Says They Must Take As Active a Part In This Campaign As They Did Four Years Ago.

Chicago, Ill., Sept. 18.—Senator Hanna entertained twenty-five leading business men at luncheon at the Union League club yesterday, after which he made a short speech.

The drift of the senator's talk was that the business men of the country are, as much interested in this election as they were in 1896 and they should take as active a part in it as they did four years ago. He cautioned them that the only danger to republican success was over-confidence and apathy on the part of the men who are not accustomed to take an active part in politics, and warned his hearers that Bryan was as much a free silver man now as he was four years ago.

Mr. Hanna's appeal was that his auditors wake up and go to work. When the senator finished there was a general interchange of ideas of the guests present as to the work which ought to be done. In talking of the purposes of the gathering Senator Hanna afterward said: "I wanted to wake them up and I guess I did before I got through."

LA CROSSE JUST AHEAD OF OSHKOSH

Drops From First Place Ten Years Ago to Third in the Contest for Second City.

Washington, D. C., Sept. 18.—The canvass of the population returns for the city of La Crosse, completed at the census bureau not only makes Superior place secure as second city but emphasizes the marked growth of Superior and Racine during the past ten years.

The population of La Crosse according to the recent enumeration, is given at 28,895. This is a gain at 9,805 since 1890, or 15.117 per cent. This record places La Crosse next below Racine with a difference in favor of the latter city of 207.

The per centage of growth in La Crosse according to these figures is considerably below that of either Racine or Oshkosh, Racine having made an increase amounting to 38.46 per cent and Oshkosh 23.86 per cent.

Headache may be called a woman's ailment. Some men suffer from it. But almost all women have to endure its pain with each recurring month. This fact points at once to the intimate relation between the health of the delicate womanly organs, and the general health of the whole body. Dr. Pierce's Favorite Prescription banishes headache by banishing its cause. It cures the diseases which irritate the delicate womanly organs, fret the nerves and waste the strength. It increases the vitality and builds up the nervous system. "Favorite Prescription" contains no opium, cocaine or other narcotic.

NIGHT BLOOMING CEREUS IS WATCHED

**PLANT 17 YEARS OLD UNFOLDS
BLOSSOMS AT EDGERTON.**

Dr. James A. Lord Taken to the Sanatorium at Palmyra—Production of Hamlet Pleases a Big Audience—Marshal Reynolds Has a Tough Customer to Deal With.

Edgerton, Sept. 18.—Last Thursday evening about twenty-five neighbors gathered at the home of Mrs. Reuben Nagle to witness the opening of ten buds of a night blooming cereus. About ten o'clock the blossoms appeared much to the delight and interest of those present. Several flash light pictures were taken and these when finished will be given as souvenirs of the occasion. The plant is seventeen years old and has been in the Nagle family for sixteen years. The evening at Mrs. Nagle's was passed most pleasantly and it was near the hour of twelve before the last of the guests departed for home.

James Reynolds and wife are entertaining Miss Lottie Parks of Jefferson. She will remain with them about three weeks.

Those from here who have gone to Beloit to attend college are Miss Alyce Ebbott, Miss Minnie Brown, Miss Sarah and Mary Mawhinie and Len Kauffman. They left on Tuesday.

Frank Ash has been in Madison buying his stock of holiday goods from a large sample line from an Eastern house.

Now that the Evansville Fair is over and the editorial staff of the Review have eaten the thirty-three pound watermelon that took first premium we may expect some good juicy news through the columns of that paper.

Mr. Will Lord was called here Friday on account of the serious condition of Dr. James A. Lord.

Roger Watson and Alex. Armit left on Monday for a trip to Southern Illinois. They go overland on bicycles and expect to be absent about a month.

Dr. James A. Lord was taken to the sanatorium at Palmyra last Saturday where he may have the attention of the nurses and physicians of that institution. There is no improvement in his condition, and every effort is being made to make him as comfortable as possible. The production of Hamlet at Royal hall Monday evening by the Slayton, N. Y., stock company with John Arthur as Hamlet, gives an Edgerton audience an opportunity for the first time of seeing this the greatest of Shakespeare's tragedies. Manager Carr is putting on a better class of plays than was ever before given here.

Allie McIntosh and bride arrived in Edgerton Saturday and passed Sunday with relatives here.

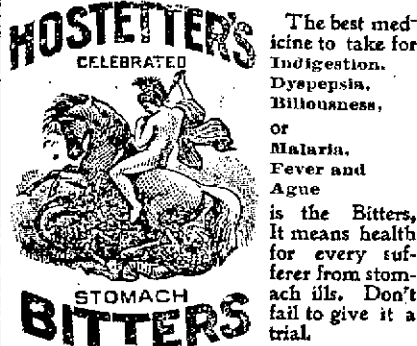

Marshal Reynolds had a tough customer to deal with Friday night. A suspicious looking character who had been hanging about town during the day, was taken to the lock-up about ten at night and at the door he showed fight and refused to enter. A tussel ensued and for about five minutes a regular Fitzsimmons and Corbett time was had. The marshal finally felled his man and dragged him in.

Henry Abbott returned Saturday morning from a two weeks' trip to Minnesota, most of the time being passed in the vicinity of Redwood. He says that Minnesota is as fine a country as one would wish to look at and the only criticism is that there is too much of it. J. H. Jurgerson, real estate agent of Rio, Wis., was in Edgerton on Saturday. He reports a large crop of tobacco in that vicinity this year, and a very fine quality.

Office of Street Assessment Committee, City of Janesville, Sept. 4, 1900.

The common council of the city of Janesville, having decided that it was expedient and necessary that Division street, from the southerly side of South Third street to the northerly side of Oakland avenue in the Third Ward; and North First street, from the easterly side of North Main street to the westerly side of East street, in the Second Ward; be improved by grading, at the expense of the real estate to be benefited thereby, and having ordered that the Street Assessment Committee view the premises and determine the damages and benefits which will accrue to each parcel of real estate affected by such change of improvement; the entire cost of the contemplated work or improvement upon said portions of said streets, and the amount that should be assessed to each parcel of such real estate as benefits or damages accruing thereto by such contemplated work or improvement.

Now, therefore, notice is hereby given that in pursuance of said order plans and specifications for said work have been prepared and approved, and the entire cost of the improvement contemplated in said plans and specifications determined, that we have viewed the entire territory and each parcel of real estate affected by said improvement, and determined the damages and benefits which will accrue to each parcel of real estate by reason of said improvement, and the amount that should be assessed to each parcel of real estate as benefits or damages accruing thereto by such contemplated work or improvement.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

For the Elkhorn fair, Sept. 18th, 19th, 20th and 21st the C. M. & St. P. R'y will run a special train on each of the above dates, leaving Janesville at 7 a. m. arriving at Elkhorn at 8:30 a. m. Returning leave Elkhorn at 5 p. m., fair grounds at 5:05 p. m., arriving in Janesville 7:40 p. m. \$1.25 for the round trip.

SIX DIE IN NURSERY FIRE.

Babies Suffocate in Cincinnati Salvation Army Crèche.

Cincinnati, O., Sept. 18.—Many lives were lost, principally by suffocation, in the fire which destroyed a branch nursery of the Salvation Army at 403 East Fourth street. Six of the occupants of the upper floors, babies and their attendants, lost their lives, two were fatally and five seriously burned. The building was a four-story wooden structure and the flames, consuming the staircases, cut off all chances of escape by that method. Great bravery was shown by the members of the army in attempting to rescue the babies left in their charge for the day. The dead: James Harkins, painter, aged 40 years; Herbert Harkins, aged 4 years, son of James Harkins; Rhoda Harkins, aged 5 months; Maggie Williams, aged 3 months; Edward Mullen, aged 4 years; Myrtle Ferrell, aged 6 years. The following are not expected to survive the night: Elizabeth Erickson, post captain, of New York, a native of Sweden, aged 25; Bertha Anderson, staff captain, of Chicago, aged 35, also a native of Sweden. The seriously injured: Bessie Atkins, aged 5 years; Frank Hill, aged 2 months; Albert Hill, aged 3 years; Joseph Benton, aged 4 years.

KRUGER OFFERED A WARSHIP.

Queen Wilhelmina Ready to Give Him a Passage to Europe.

The Hague, Sept. 18.—It is reported here that Queen Wilhelmina has offered President Kruger passage to Europe in the Dutch war vessel Gelderland. It is hoped that the president will accept the offer.

The Gelderland will arrive at Lorenzo Marques within six days.

New York, Sept. 17.—It is rumored in Johannesburg that Gen. Christian Dewet, the Boer guerrilla, was killed Sept. 7 near Potchefstroom.

All doubts as to Mr. Kruger's intentions of proceeding to Europe are now at rest. In reply to a telegram sent by the Express, the Transvaal consul-general stated that the object of Mr. Kruger's proposed European trip was personal and not political. The voyage was to be made for the sake of his health. Mr. Kruger declined to say whether the moment was opportune for a statement of a political character.

HERE is a matter which touches your comfort. You want a clear, fair complexion. This is really nine-tenths a question of the treatment of the pores of the skin. Some toilet soaps are as nippy and keen as mustard. If you will only use the virtue you call your Judgment, it will tell you that any soap which leaves the hands habitually dry is robbing the skin of its natural oil. Free alkali is the robber's name. Ivory Soap has no free alkali. Try it! It floats.

Pity Paves a Way to Robbery.

St. Louis, Mo., Sept. 18.—Edward S. Plummer's pity for a man with both hands in a bandage cost him a small fortune. He entered the Third national bank with a small tin box containing several hundred dollars and some checks which he intended to deposit. He was about to make the deposit when a stranger with bandaged hands asked him to write out a check for him. Plummer wrote the check, but when he turned to give it to him the man was gone and with him Plummer's box.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

LET US GO AHEAD.

Among other things, Janesville should have a sewerage system, and the work should be begun at once. Every day that this matter is delayed counts. Now that permanent streets are being built, sewers should be provided in order that it shall not be necessary to dig up costly macadam. There is no use in heating about the bush, and talking about expense. Janesville cannot be in the front rank of cities unless she keeps up with the procession. And in order to keep up with the procession an unwise penny-pinching policy must be avoided. A system of sewerage is a modern public necessity, and Janesville should provide such conveniences for her citizens.

The City of Superior furnishes a model for Janesville to copy.

During the past ten years Superior's population has increased 160 per cent. This phenomenal growth is due to two causes—the natural advantages enjoyed by the city, and the liberality of her people in the matter of public enterprises. During the year 1899, Superior raised \$267,100 in taxes, the funds being as follows:

the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

The tax levied, according to city clerk F. J. Seguin's figures was .0405—over four per cent. or \$40.50 per thousand.

The rate of taxation in Janesville, for the same period, was 2.6-10 per cent., or \$26.00 per thousand.

"Money makes the mare go," and if Janesville is to progress she must emulate Superior and pay the fiddler.

There are three urgent public needs in Janesville at present—a sewerage system, a modern police department and a city hall and library building. These necessities can be provided without burdensome taxation and no person who has the interest of the city at heart will complain of the cost. Of course every town has its chronic complainers and Janesville has hers. They are in the minority, however, and do not represent public sentiment. The majority rules, and the majority favor needed public improvements. There is no use of denying that Janesville has been in the rut for some years past. This fact is universally conceded. The question is now, "how long will she stay there?" Until the grass grows up in the streets?

They will give you a Full Reading, consisting of telling your name in full, names of friends, enemies or rivals, who and when you will marry, whether husband, wife or sweetheart is true or false. In fact, they tell you every hope, fear or ambition—you tell them nothing—they tell you, for the

SOLDIERS DIE BY ACCIDENT.

Sixteen Britons Killed by an Explosion

ON CHINESE TERRITORY.

Twenty-Two Were Dangerously Wounded Including an Officer—Heads of People Slain by Chinese Are Carried in Sacks—Germans Kill 100 Boxers.

London, Sept. 18.—The government has received from Taku an official report of an accident that occurred to a British party while destroying gunpowder captured from the Chinese at Tungechow. Sixteen men were killed, twenty-two dangerously wounded, and eight, including an officer, severely injured. The officer belonged to the British-Chinese regiment from Wei Hai Wei.

REPORTS ON PEKIN RAILWAY.

Chaffee Cables Line to Capital Will Be Open in Two Months.

Washington, D. C., Sept. 18.—The war department has received the following cablegrams from Gen. Chaffee: "Taku (no date).—Adjutant-General, Washington: Sept. 13 Russian commander assures me he has ordered repair material from Port Arthur, Vladivostok and United States and that he feels assured railway will be repaired in two months. Need fifty storm flags and 5,000 more small flags; latter required for Chinese houses to show our protection. Goodnow telegraphs 7th, at request of Li Hung Chang, latter leaves Shanghai in week or so."

"Chaffee."

It is thought at the war department that the date, Sept. 13, refers to the time the message left Pekin. The railroad mentioned is the line between Tientsin and Pekin. The second dispatch is as follows:

"Taku (no date).—Adjutant-General, Washington: Pekin, Sept. 14.—Expedition Tientsin to Taku, thirty miles southward, two companies Fourteenth infantry participating. Returned Tientsin; slight opposition. Town destroyed by British troops; no casualties. Filed cable office 6:20 p. m., 15th."

"Chaffee."

HEADS OF AMERICANS IN SACKS.

Chinese Carried Them and Received Reward for Ghastly Trophies.

Victoria, B. C., Sept. 18.—Among the advices brought by the Breconshire from China were stories of the arrest of Chinese with the heads of foreign soldiers in sacks. It seems that 50 tael is paid for each head. This fact was brought to light by the discovery of the private papers of Viceroy Yulu of Tientsin. In his day book there is an entry which reads:

"Tael 100 paid for the heads of two

Amoy. The advance to the relief of Tientsin. Tael 50 for the two guns captured on the same occasion."

The entry explains many ghastly incidents which have been recounted of the killing of wounded. When Capt. Beys and three marines with him fell at the engagement before Hsi arsenal attempts were made to decapitate them. The next night some Chinese were found hiding in the millet, and in trying to escape were bayoneted. One clung with great pertinacity to a bag, which, when opened, was found to contain the head of a United States marine, Gunner Watkins.

Germans Kill 100 Boxers.

Berlin, Sept. 18.—An official dispatch from Shanghai says a German naval battalion, accompanied by forty Bengal lancers, captured and burned the town of Liang, Sept. 11. A hundred Boxers were killed. The Chinese regular troops occupying the place had previously fled. The German loss was one man killed and five wounded.

TO TEST LI HUNG CHANG.

Is Sincere He Must Protect Americans—Von Kettler's Assassination Shot.

Washington, Sept. 18.—Li Hung Chang's promises to maintain peace and order are to be put to the test. He was some time ago appointed viceroy of Pe Chi Li. The United States has suggested that if he is sincere in his pledge that order shall be maintained and American life and property shall be protected the best way for him to demonstrate his good faith and his ability at the same time is by putting a stop to the Boxer raids and the persecution of missionaries in the province which belongs under his personal jurisdiction. It is reported that the Russian soldiers are beginning to withdraw from Pekin.

Pekin, Sept. 19.—It is reported here that the assassin of Baron von Kettler has been shot.

Shanghai advices say that a house has been engaged there for Count von Waldersee, who is expected to arrive next Saturday.

Chinese regulars are reported to have relieved the Roman Catholic stronghold at Ho Chien, in the province of Chi Li, which the Boxers had been besieging since June.

London, Sept. 19.—The Shanghai correspondent of the Times says: "Li Hung Chang has been notified from Berlin that he must submit his credentials to the German minister at Shanghai, who will then communicate with Emperor William, and await result."

"Dr. Mumm von Schwartzstein, in an interview with Sheng, expressed the opinion that, although the powers were averse to the partition of China, and delay in negotiating was calculated to produce that result, and that Germany was prepared to remain in occupation indefinitely pending a satisfactory settlement."

"Earl Li accordingly telegraphed Gen. Yung Lu to use every effort to persuade the empress dowager and emperor to return to Pekin and to remove Prince Tuan and his entourage."

A BIG FIRE IS NOW FEARED.

Galveston's Wreckage Has Become So Much Tinder.

Galveston, Tex., Sept. 18.—A danger which Galveston now faces is fire. Not a drop of rain has fallen since the hurricane, and the hot winds and blistering suns have made the wrecked houses and buildings so much tinder, piled mountain high in every direction. In nearly all parts of the city the fire hydrants are buried five feet, in some places a hundred feet deep under the wreckage, and as yet the water supply at best is only of the most meager kind.

Department Is Crippled.

Galveston's fire department is small and badly crippled and would be utterly powerless to stay the flames should they once start. There is no relief nearer than Houston, and that is hours away. In view of all the existing conditions it is no wonder that the cry is "Get the women and children to the mainland; anywhere off the island," nor is it a wonder that with one small boat carrying only 300 passengers and making only two trips a day people fairly fight to be taken aboard.

Boat Service Is Cut Off.

All yesterday fears were entertained by the authorities that even this service would be cut off and Galveston left without any means of getting to the mainland owing to the trouble with the owner of the boat.

Chicago's relief train, bearing its generous load of supplies, is supposed to have reached Houston yesterday, and is lost somewhere in the railway yards. When these supplies will get into Galveston is a question, for the small steamer, referred to above, and a few lighters are the only transportation means available to get them there.

More Physicians Needed.

The sanitary conditions do not improve. Dr. Trueheart, chairman of the committee in charge of caring for the sick and injured, is going on with dispatch. More physicians are needed, and he requests that about thirty outside physicians come to Galveston and work for at least a month, and, if needed, longer.

The city's electric light service is completely destroyed and the city electrician, says it, may be sixty days before the business portion can be lighted.

A glorious and modern Galveston, to be rebuilt in place of the old one, is the cry raised by the citizens, but it would seem a task beyond human power to ever remove the wreckage of the old city.

Will Import Laborers.

The general committee of public safety has decided to import laborers. This action was taken with the consent of the local unions. Skilled mechanics, now busy burying the dead without pay, will on Tuesday be relieved of this work and be replaced by imported unskilled labor.

Marshals Sworn In.

The strong arm of the government has come to the aid of Galveston. Fifty United States deputy marshals were sworn in Sunday by Marshal Grant. Ninety more will be sworn in today. People have gained confidence and the outlook is better. The United States cutter Winona arrived in the harbor at 12 o'clock Sunday. She is loaded with relief supplies and is now docking. Some of the streets last night were illuminated with electric lights, and on these streets only is traffic permitted after dark. Pickets were out demanding credentials of every one.

Relief Fund Is Only \$800,000.

Gov. Sayers states that while he had not figured up the contributions of cash which he had received for the Galveston sufferers, he is confident they will not aggregate \$800,000. He says several times this amount is needed, and it is urged that there be no lapse in the work of raising subscriptions for the destitute people and to aid in clearing the city of its ruins. The governor today contracted for the employment of 4,000 laborers for 30 days to work in Galveston at removing the debris and restoring the sanitary condition of this city.

Death List May Be 15,000.

A census is being taken by wards to obtain some approximate idea of the total death list. Partial figures from eleven out of twelve wards, allowing four persons to a family, make the number of victims 15,000. This is regarded as the outside estimate. The destruction in the twelfth ward is appalling. Of 547 houses but twenty-eight are left standing.

McKinley's Plan Out.

Washington, D. C., Sept. 18.—President McKinley's orders for the establishment of a government over the Philippines have been made public. They were issued April 7 last in the form of instructions to the Taft commission, whose members were charged with promulgating, Sept. 1, a civil rule that should guarantee the fullest possible measure of freedom to all the islanders, safeguard their rights, and separate church from state.

"I couldnt Sew another Stitch to Save my Life."

A gorgeous costume flashed beneath the brilliant lights of a ball room. The queen of society is radiant to-night. The nervous hands of a weak woman have toiled day and night, for the dress must be finished in time.

To that queen of society and her dressmaker we would say a word. One through hothouse culture, luxury and social excitement, and the other through the toil of necessity, may some day find their ailments a common cause.

Nervous prostration, excitability, fainting spells, dizziness, sleeplessness, loss of appetite and strength, all indicate serious trouble, which has been promoted by an over-taxed system.

For the society queen and the dressmaker alike, there is nothing so reliable as Lydia E. Pinkham's Vegetable Compound to restore strength, vigor, and happiness.

Mrs. Lizzie Anderson, 49 Union St., Salem, N. J., writes:

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you how grateful I am to you for what your medicine has done for me. At one time I suffered everything a woman could. I had inflammation of the ovaries, falling of the womb, and leucorrhoea. At times could not hold a needle to sew. The first dose of your Vegetable Compound helped me so much that I kept on using it. I have now taken six bottles and am well and able to do my work. I also ride a wheel and feel no bad effects from it. I am thankful to the Giver of all good for giving you the wisdom of curing suffering women. I recommend your medicine to every woman troubled with any of these diseases."

Mrs. Sarah Swoder, 103 West St., La Porte, Ind., writes:

"DEAR MRS. PINKHAM:—It gives me great pleasure to tell you how much good Lydia E. Pinkham's Vegetable Compound has done for me. I had been a sufferer for years with female trouble. I could not sew but a few minutes at a time without suffering terribly with my head. My back and kidneys also troubled me all the time. I was advised by a friend to take your medicine. I had no faith in it, but decided to try it. After taking one bottle I felt so much better that I continued its use, and by the time I had taken six bottles I was cured. There is no other medicine for me. I recommend it to all my friends."

deposited with the National City Bank of Lynn, Mass., \$5,000, which will be paid to any person who will show that the above testimonials are not genuine, or are published before obtaining the writers' special permission.—LYDIA E. PINKHAM MEDICINE CO.

REPLY BY WILLIAM J. BRYAN.

Letter of Acceptance of the Nomination

BY THE DEMOCRATIC PARTY.

Deals at Some Length with the Trusts and Favors Laws That Will Lead to Their Suppression—Says Imperialism Is the Paramount Issue.

Lincoln, Neb., Sept. 18.—The letter of Wm. J. Bryan accepting the Democratic nomination for president has been given out for publication.

In his letter Mr. Bryan, while declaring that imperialism is the most important question before the American people, opens with a discussion of trusts. His reason for this is given as follows: "Having in my notification speech discussed somewhat at length the paramount issue, imperialism, . . . it is sufficient at this time to review the remaining planks of the platform."

In the letter he declares that no defense of trusts can be offered, and that if elected he will favor the dissolution of every private monopoly which does business outside of the state of its origin.

He declares the Dingley tariff bill is a trust-breeding measure.

He favors enlarged powers for the interstate commerce commission.

He reiterates the position of the Democratic party on the money questions and says its position has not changed since four years ago.

He favors the election of senators by direct vote of the people.

He deals at some length with labor questions, denouncing government by injunction and the black list and favoring arbitration and a department of labor in the cabinet.

The exclusion of Chinese and similar Asiatic peoples is favored.

He favors generous pension laws, a Nicaragua canal, statehood for Arizona, Oklahoma and New Mexico, home rule and representation in congress for Porto Rico and Alaska, and a system for the reclamation of arid lands, and an income tax.

He questions the ability of the Republican party to work out the welfare of the Cubans.

Foreign alliances are opposed.

He objects to the abandonment of the Monroe doctrine and favors a protectorate over the Philippines.

Takes Up Subject of Trusts.

Regarding trusts Mr. Bryan says:

"The platform very properly gives prominence to the trust question. The appalling growth of combinations in restraint of trade during the present administration proves conclusively that the Republican party lacks either the desire or the ability to deal with the question effectively. It may be fairly assumed from the speeches and conduct of the Republican leaders, that party does not intend to take the people's side against these organizations, then the weak and qualified condemnation of trusts to be found in the Republican platform is designed to distract attention while industrial despotism is completing its work. A private monopoly has always been an outlaw.

"No defense can be made of an industrial system in which one, or a few men, can control for their own profit, the output or price of any article of merchandise. Upon such a system the consumer suffers extortion, the producer of raw material has but one purchaser, and must sell at the arbitrary price fixed; the laborer has but one employer and is powerless to protest against injustice, either in wages or conditions of labor; the small stockholder is at the mercy of the speculator, while the traveling salesman contributes his salary to the overgrown profits of the trust."

Imperialism of Most Importance.

Regarding "imperialism" he says:

"The subjects, however, treated in this letter, important as each may seem in itself, do not press so imperatively for solution as the question which the platform declares to be the paramount issue in this campaign. Whether we shall adhere to or abandon those ideas of government which have distinguished this nation from other nations and given to its history its peculiar charm and value, is a question the settlement of which, cannot be delayed. No other question can approach it in importance; no other question demands such immediate consideration. It is easier to lose a reputation than to establish one, and this nation would find it a long and laborious task to regain its proud position among the nations, if, under the stress of temptation, it should repudiate the self-evident truths proclaimed by our heroic ancestors and sacredly treasured during a career unparalleled in the annals of time. When the doctrine that the people are the only source of power is made secure from further attack we can safely proceed to the settlement of the numerous question which involve the domestic and economic welfare of our citizens."

Bolivian Minister Arrives.

San Diego, Cal., Sept. 17.—The Kosmos liner Herodot, from Hamburg and ports on the southern Pacific coast, came into port flying the Bolivian flag in honor of Dr. F. Guachalla, the new Bolivian minister, who was a passenger on his way to Washington.

The Herodot also brought the family of Minister Calderon of Peru. The diplomatic party will remain at Coronada a few days and then go east.

Seminole Fight for a Girl.

Fort Meyers, Fla., Sept. 18.—A rumor from the Seminole camp at Turtle Mound reports that in a big sun dance four Seminole braves had a bloody fight, all wanting to marry the chief's daughter. All four were killed in the melee. The girl then drowned herself from grief for one of the dead braves.

Fever Rages Among Lunatics.

Des Moines, Iowa, Sept. 18.—The state board of control returned from Independence after an investigation at the state hospital for the insane. There are 108 cases of typhoid fever among the 1,200 inmates, and eight deaths have occurred. Fever germs were found in the tanks of water supplied by the Independence water works.

Suicide in Waldorf-Astoria.

New York, Sept. 18.—John C. Hayes, a well-known broker in woollens, committed suicide at 12:30 o'clock this morning in the Waldorf-Astoria. He shot himself in the right temple while in the basement. This was the first suicide to occur in the Waldorf-Astoria.

WE MUST REPEAT.

When Everybody in Janesville Tells the Same Story.

It is hard to say new things about Doan's Kidney Pills. They cure the lame and aching back, the sufferer from kidney disorders and the troubles of those whose urinary organism is wrong in its action. That they do this is so easy to prove that not a vestige of doubt remains. Public endorsement of local citizens is easily proven. Read this case:

Mr. E. Dillenbeck, of 126 Milton Ave. retired farmer, says: "My wife was troubled with kidney complaint for four or five years, and complained of pains in the small of the back in the region of the kidneys. The symptoms all indicated that the kidneys were deranged, and the doctors who treated her said that those organs caused the trouble. As she did not get any better we thought Doan's Kidney Pills might give her relief, and procuring them at the Peoples drug store, I had her use the remedy. It did for her all that could be expected and did her a great deal of good. We can recommend Doan's Kidney Pills and you can use our names as saying what has been stated above."

For sale by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Bishops Take Umbrellas.

The Athenaeum of London is a very solemn club and consists of eminent doctors, judges, barristers, and, above all, Bishops. It was a rainy day; it was one of those threatening days with which we are familiar during this disappointing summer, and one of Lord Salisbury's secretaries observed that his chief was starting out for his luncheon at the Athenaeum; he rushed for the umbrella and offered it to Lord Salisbury. "No, no," said Lord Salisbury, "I've lost too many in the Athenaeum. I cannot trust the bishops!"

Habits of Carrier Pigeons.

The carrier pigeon when traveling never feeds. If the distance be long, it flies on without stopping to take nutriment and at last arrives thin, exhausted and almost dying. If corn be presented to it, it refuses to eat, contenting itself with drinking a little water and then sleeping. Two or three hours later it begins to eat with great moderation and sleeps again immediately afterward. If its flight has been very prolonged the pigeon will proceed in this manner for forty-eight hours before recovering its normal mode of feeding.
